

Overview

After logging in to SOP, users will be directed to the dashboard. Executive, plant, and driver users will see a different dashboard, detailed in their respective user guides.

Current Jobs

At the top of the Dashboard, the Current Jobs displays all the active jobs loading from your plants. Each job will include at least one job number, cost code, mix design, and load and deliver locations when available. The view button on each job will take you to the Job Details page.
